

Classic Friendly

WHAT IS CLASSIC FRIENDLY

As many of you classic car and motor cycle owners are aware from the 18th November 2012 the MOT was scrapped for any vehicle registered prior to 1st January 1960.

This, you might think is a good thing and one less expense for your classic motoring budget!

BUT, as the owner of the vehicle you are legally required to ensure your car or motorcycle is safe and in a proper condition to be on the road!

How do YOU know your vehicle is safe and in a proper condition to be on the road???

Classic Friendly

OAKFIELDS IS PART A NATIONWIDE NETWORK

Oakfields are able to offer vehicle safety inspections. The inspection will provide you with the reassurance that your classic vehicle is safe and roadworthy. The inspection has been endorsed by leading insurance brokers and tailored to suit a 50+ year old vehicle.

There is no pass or fail, but we will provide you with a comprehensive report on the condition of your vehicle which will highlight any areas in need of attention required to make your vehicle safe and roadworthy. There is even general maintenance and preservation advice given as well.

The report will be available for you to download off our website and it will also allow you to invite 3rd parties to view your vehicle inspection history, for example a potential buyer or your insurance company.

Oakfields were only appointed after they have satisfied all of the criteria set out by us at Classic Friendly. Oakfields were chosen to join because we have demonstrated that we have the required experience, knowledge and enthusiasm to work on classic cars and motorbikes. As we all know, to find a classic friendly garage that you can trust to meet your needs can sometimes prove to be a challenge.

Oakfields can also offer you a more comprehensive inspection, which has been devised with the buyer or seller in mind. This inspection looks at every detail on the vehicle and will build up a comprehensive report which will be invaluable to the seller or new owner. The buyer/seller inspection would be invaluable to anyone buying or selling their vehicle with online auctions, as it will provide the potential buyer with all the information needed to help with the sale without the need to travel miles to inspect the vehicle personally.

In addition to the inspections we will also be offering menu servicing, again tailored to the 50+ year old vehicle.

Overall what we are offering is to look after your classic correctly and ultimately keeping them on the road safely.

Another benefit of being registered with Oakfields and Classic Friendly is that, as the owner of the inspected vehicle you can also invite a third party to view any of your vehicle inspections or history. This is particularly useful for Insurance company's and prospective buyers. After the initial Classic Friendly inspection, all these extra benefits are at NO extra cost.

Looking after your classics
